EDUCATION

I have worked relentlessly on 7 education bills designed to ensure our children have every opportunity for the best education possible. I believe that the power and control to educate your child must remain with the parents and not the bureaucratic government. I also believe that homeschool children should have the right to try out for sports and activities in local school districts.

Some of the bills that I have introduced in this area are:

- **SB 1256 "Given Name Act"** - This act ensures that children must be called by their given name in our classrooms and that radical ideology stays out of the classroom.
- **SB 1065 "Career-Tech Certificate (CTC) Program"** - This act establishes a program and a fund to reimburse the costs of eligible students' tuition, books, and fees to certain approved institutions, such as two-year community colleges and technical schools, that offer training programs or eligible programs of study.
- **SB 1120 "Presidential Preference Primary Election"** - This act establishes a presidential preference primary election to be held on the first Tuesday in March of each year in which a presidential election is held.
- **SB 814 "Education Freedom Act"** - This act modifies provisions relating to the statewide assessment system, school accountability report cards, and the powers and duties of the State Board of Education.
- **SB 1170 "Free Speech on Campus Act"** - This act protects the rights of students to express their thoughts freely in public and private colleges that receive government funds and requires such colleges to report annually on their compliance with this act.

NOW IS THE TIME TO RECLAIM

I need your help to RECLAIM parent rights and to reclaim our classrooms from radical special interest groups. Anyone who knows me knows the passion I have for ensuring our children get the best education possible. You can help by getting involved at your local school board and by helping spread the word that we will not let special interest groups push a radical ideology in our classrooms.

Initiative Petition Reform

SJR 77 is one of the most important bills I am working to get through legislation. Radical organizations backed by big money special interest groups are bypassing the legislative process by misusing the initiative petition. They are proposing constitutional amendments that would undermine our values and principles and harm our state.

SJR 77 amends the current bill by prohibiting foreign interests from directly or indirectly making contributions to initiative petitions. It also increases the signature requirements and the vote thresholds for initiative petitions proposing constitutional amendments. It also requires such petitions to be approved by the voters in two consecutive general elections.

Current law provides that any initiative petition proposing a constitutional amendment must be signed by at least 8% of the legal voters in each of two-thirds of the congressional districts in the state and must be approved by a simple majority of the voters at a general or special election. SJR 77 would increase the signature requirement to 15% and the vote threshold to 60%. It would also require the petition to be approved by the voters in two consecutive general elections, with at least a 60% vote in each election.

I believe that this reform is necessary to protect our constitution from being hijacked by special interests and to preserve the integrity of our democratic process.

FARMERS FEED OUR FAMILIES

Being a farmer, I understand the many issues farmers face in today's environment. I have introduced 4 bills to support and protect our farmers and consumers in Missouri.

Some of the bills that I have introduced in this area are:

- **SB 908 "Solid Waste Processing Facility Act"** - This act requires any earthen basin or lagoon containing certain waste originating from any commercial or industrial source to be considered a solid waste processing facility and to be subject to the permitting and waste disposal requirements under current law.
- **SB 1064 "Product Labeling Act"** - This act amends the current product labeling to ensure consumers are protected in Missouri and to prevent misleading or false claims about the origin, quality, or ingredients of products.
- **SB 1065 "ATV Tax Exemption Act"** - This act allows ATVs being used for agriculture to be added as tax exempt farm machinery.
- **SB 1171 "Farmers' Right to Repair Act"** - This act grants farmers the right to repair their own equipment without voiding the warranty or violating the terms of service of the manufacturer.

I am working diligently with other Senators to help farmers across this great state. I am also fighting hard to protect our children and families by forcing transparency of ingredients being put on your kitchen table.

CONSTITUTIONAL SHERIFF

SJR 75 is another important bill that I am working to get through legislation. I believe that a constitutional sheriff helps protect local citizens from federal overreach of power. A constitutional sheriff is elected by the people and has the authority and duty to uphold and defend the constitution and the rights of the people.

SJR 75 states that each county shall elect a sheriff for a term of four years by a majority of the qualified voters of the county. It also requires federal law enforcement to notify county sheriffs of any investigations within the sheriffs' county.

I believe that this bill is necessary to ensure the sovereignty and security of our state and our people.

You can find more details about these bills and other bills that I have submitted on my website or on the official website of the Missouri Senate . I welcome your feedback and suggestions on these bills and any other issues that you care about.

I am honored to serve you and our district in the Missouri Senate. I will work hard to represent your interests and values and to make our state a better place for all of us.

Please feel free to contact me anytime at [\[Your phone number\]](#) or [\[Your email address\]](#). I would love to hear from you.

Thank you for your attention and your trust. God bless you and God bless Missouri.

Sincerely,
